Pepper Street Community Arts Centre, 558 Magill Rd, Magill

Life Drawing: looking at human anatomy

Tuesdays, 2 pm – 4 pm

6, 13, 20, 27 March, (4 weeks) Cost: \$120 (includes model's fee)

Students will be given weekly exercises which help to relax the brain while focusing on observing the nude model. Life drawing has been proven to be a valuable activity for keeping the brain active and preventing memory loss. As effective as meditation, and some say more enjoyable, your drawing will improve as your confidence increases. This time the focus is on understanding what goes on under the skin, so it will stimulate the imagination as well as the memory. All materials provided.

Norton Summit Community Centre, 1 Crescent Drive, Norton Summit.
